WESTMINSTER RESOURCES LTD.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS****Three Months Ended August 31, 2015 and 2014**(Expressed in Canadian dollars)

1. Nature and Continuance of Operations

Westminster Resources Ltd. (the "Company" or "Westminster") was incorporated under the *Business Corporations Act* of British Columbia on December 1, 2005. The Company is involved in the acquisition, exploration and development of mineral properties.

The head office, registered address and records office of the Company are located at Suite 488 - 625 Howe Street, Vancouver, British Columbia, Canada V6C 2T6.

These consolidated financial statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. However, there are factors that management has identified that may cast significant doubt on the entities ability to continue as a going concern.

For the three months ended August 31, 2015, the Company reported a net loss of \$244,957 (2014 – \$161,595) and a deficit of \$16,367,402 (May 31, 2015 - \$16,122,445). As at August 31, 2015, the Company had a working capital deficiency of \$1,334,305 (May 31, 2015 - \$1,064,581). The Company has no source of operating cash flow and relies on issuances of equity to finance operations, including exploration of its exploration and evaluation ("E&E") assets.

The ability of the Company to continue as a going concern and meet its commitments as they become due, including completion of the acquisition, exploration and development of its E&E assets, is dependent on the Company's ability to obtain the necessary financing. Management is planning to raise additional capital to finance operations and expected growth, if necessary, or alternatively to dispose of its interests in certain properties. The outcome of these matters cannot be predicted at this time. If the Company is unable to obtain additional financing, the Company may be unable to continue as a going concern.

The business of mining exploration involves a high degree of risk and there is no assurance that current exploration projects will result in future profitable mining operations. The Company has significant cash requirements to meet its administrative overhead, pay its liabilities and maintain its E&E assets. The recoverability of amounts shown for E&E assets is dependent on several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties and future profitable production or proceeds from disposition of E&E assets.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern. Accordingly, they do not give effect to adjustments that may be necessary should the Company be unable to continue as a going concern, and therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business.

2. Basis of Presentation**a) Statement of Compliance**

The Company is following the same accounting policies and methods of computation in these condensed consolidated interim financial statements as it did in the audited consolidated financial statements for the year ended May 31, 2015.

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended May 31, 2014, which have been prepared in accordance with IFRS as issued by the IASB. These condensed interim financial statements were authorized for issue by the Board of Directors on October 30, 2015.
